EDUCATION

Bachelor of Engineering (B.E) in Information Science and Engineering
Global Academy of Technology
CGPA: 8.08

July 2022 - June 2026

TECHNICAL SKILLS

Programming Languages	Java, JavaScript
Front end Technologies	HTML, Tailwind CSS, React.js
Backend Technologies	Node.js, Express.js
Database	SQL, MySQL, MongoDB
Tools and Technologies	Git, GitHub, REST APIs, Postman
Core Concepts	Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), DBMS

INTERNSHIP EXPERIENCE

Full Stack MERN Developer Intern
CampusPe (Edufu Technologies Pvt Ltd.)

Feb 2026 – May 2026

- Built **Dark Mode UI Theme Management System** — a full-stack, AI-powered web application using React.js, Node.js, Express.js, and MongoDB as a capstone project in a team environment
- Developed **12+ RESTful API endpoints** covering authentication, item management, analytics statistics, CSV export
- Collaborated using GitHub branching, pull requests, and code reviews while gaining hands-on experience across the MERN stack including HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, Git, and REST API development

PROJECTS

Smart College Placement Management System

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT | [🌐 Live Demo](#) | [🐙 GitHub](#)

- Developed a full-stack Placement Management System supporting Student, Recruiter, and Admin role-based access using React.js, Node.js, Express.js, and MongoDB Atlas.
- Implemented JWT authentication, job posting, eligibility verification, and application tracking workflows.
- Deployed the application using Netlify, Render, and MongoDB Atlas with cloud-hosted database integration.

Dark Mode UI Theme Management System

Tech Stack: React.js, Vite, Tailwind CSS, Axios, Recharts, Node.js, Express.js, MongoDB, JWT. [🐙 GitHub](#)

- Built a full-stack, AI-powered web application to manage and analyse dark mode UI theme components with JWT-based authentication, role-based access control, and protected route navigation
- Developed a CRUD system with search, status and date-range filtering, CSV export, and AI-powered analysis features.
- Integrated an AI analysis panel with three modes — Describe, Recommend, and Generate Report.
- Designed an analytics dashboard with KPI metrics and AI-powered Describe, Recommend, and Report Generation modules.

Secure MERN Task Dashboard with MySQL Integration

Tech Stack: React.js, Node.js, Express.js, MySQL, REST APIs, Git [🐙 GitHub](#)

- Developed a full-stack task management dashboard with secure JWT-based authentication and MySQL database integration
- Implemented user authentication features including login, registration, and password reset with encrypted password storage
- Designed a dynamic dashboard displaying real-time statistics (active, pending, completed, priority-based insights).
